EDUCATION

University of Texas at Austin, Austin, U.S. 08/2023 – Present

PhD student in Electrical and Computer Engineering, Cockrell School of Engineering

University of Science and Technology of China, Hefei, China 09/2020 – 07/2023

Master in Electronic and Information Engineering, School of Information Science and Technology

University of Science and Technology of China, Hefei, China 09/2016 – 07/2020

B.E. in Automation, School of Information Science and Technology

PUBLICATIONS

- **Shijun Li**, Wenqiang Lei, Qingyun Wu, Xiangnan He, Peng Jiang & Tat-Seng Chua, "Seamlessly Unifying Attributes and Items: Conversational Recommendation for Cold-Start Users", in ACM Transactions on Information Systems (**TOIS 2021**), [pdf] [codes]
- Chongming Gao*, **Shijun Li***, Wenqiang Lei, Jiawei Chen, Biao Li, Peng Jiang, Xiangnan He, Jiaxin Mao & Tat-Seng Chua, "KuaiRec: A Fully-observed Dataset and Insights for Evaluating Recommender Systems", (* **Equal contribution**), in Proceedings of the 31st ACM International Conference on Information and Knowledge Management (**CIKM 2022**, Full), [pdf] [codes] [data] [presentation]
- Chongming Gao*, **Shijun Li***, Yuan Zhang*, Jiawei Chen, Biao Li, Wenqiang Lei, Peng Jiang & Xiangnan He, "KuaiRand: An Unbiased Sequential Recommendation Dataset with Randomly Exposed Videos", (* **Equal contribution**), in Proceedings of the 31st ACM International Conference on Information and Knowledge Management (**CIKM 2022**, Short), [pdf] [data] [poster]
- Chongming Gao, Shiqi Wang, **Shijun Li**, Jiawei Chen, Xiangnan He, Wenqiang Lei, Biao Li, Yuan Zhang & Peng Jiang, "CIRS: Bursting Filter Bubbles by Counterfactual Interactive Recommender System", in ACM Transactions on Information Systems (**TOIS 2023**), [pdf] [codes]

SELECTED PROJECTS & RESEARCH

Project: Explore Interest of Cold-Start Users by Conversational Recommendation 03/2020 - 12/2020

Advisor: Prof. Xiangnan He(USTC), Prof. Wenqiang Lei(SCU), Prof. Qingyun Wu(PSU), Prof. Tat-Seng Chua(NUS)

- Actively asking users' preferences by conversations helps to efficiently capture the interest of cold-start users
- Propose a holistic framework to seamlessly solve all conversation policy questions in an end-to-end manner
- Apply Thompson Sampling to conversational recommendation for keeping EE balance in cold-start scenario

Project: Explore Trustworthy Evaluation for Conversational Recommendation 03/2021 - 12/2021

Advisor: Prof. Xiangnan He (USTC), Prof. Wenqiang Lei (SCU), Dr. Peng Jiang (Kuaishou Inc.)

- Collect a fully-observed dataset for the first time on Kuaishou, which is one of the largest short-video sharing Apps in China, with millions of user-item sequential interactions
- Study the effect of different exposure rates and various biases on the evaluation of conversational recommendation systems (CRSs)
- Investigate the effect of matrix completion, i.e. estimating the missing values, on the evaluation of CRSs

Project: Implement Reinforcement Learning in Real-World Recommender System 03/2022 - 07/2022

Advisor: Prof. Xiangnan He (USTC), Dr. Yuan Zhang (Kuaishou Inc.)

- Design an actor-critic based RL model for online recommendation for millions of users on Kuaishou
- Train the model in an offline RL manner by building and interacting with the world model
- Implement the RL model for the re-ranking task in real-world recommendation application, achieving significant improvement in users' total watch time and diversity of recommended videos

Project: Burst Filter Bubbles by Counterfactual Interactive Recommender System 12/2021 - 07/2022

Advisor: Prof. Xiangnan He (USTC), Prof. Jiawei Chen (ZJU), Prof. Wenqiang Lei (SCU)

- Analyze filter bubbles in interactive recommendation, focusing on the overexposure effect on user satisfaction
- Integrate causal inference into offline reinforcement learning to burst filter bubbles

EXPERIENCE

Kuaishou Technology Co., Ltd.

Beijing, China

Research Intern, Advisor: Prof. Xiangnan He, Dr. Yuan Zhang

03/2020 – 05/2023

- Study the cold-start scenario and trustworthy evaluation of conversational recommendation, constructing two valuable datasets and accomplishing three papers
- Implement offline RL in real-world short video recommendation system, serving millions of people and achieving significant online improvement

University of Florida, SmartData Lab

Florida, U.S.

Summer Research Intern, Advisor: Prof. Joel B. Harley

07/2019 – 08/2019

- Study the growth and boundaries of grains in microstructure in a RL framework, defining corresponding state and action space in RL
- Process and decode the pictures of microstructure into low-dimension expression, while denoising for the vagueness and noises in these pictures

PROFESSIONAL SERVICES & AWARDS

- **PC Member** for the 28th ACM SIGKDD Conference on Knowledge Discovery and Data Mining (**KDD 2022**), the 15th International Conference on Web Search and Data Mining (**WSDM 2022**), the 29th ACM SIGKDD Conference on Knowledge Discovery and Data Mining (**KDD 2023**) and the 1st Workshop on Recommendation with Generative Models on **CIKM 2023**.
- **Invited Reviewer** for ACM Transactions on Information Systems (**TOIS**), ACM Transactions on the Web (**TWEB**), and ACM International World Wide Web Conference 2022 (**WWW 2022**)
- UT Austin Engineering Fellowship, UT Austin, U.S. 2023
- Illinois Distinguished Fellowship, UIUC, U.S. (declined) 2023
- Outstanding Graduate Scholarship, USTC, China 2023
- National Scholarship, Ministry of Education of China, China (for top 2% students) 2022
- First Class Academic Scholarship, USTC, China 2020 & 2021 & 2022
- Outstanding Student Scholarship, USTC, China 2017 & 2018 & 2019

SKILLS

- **Programming Languages:** Python, C, C++, Matlab (ranked by proficiency)
- **Tools and Frameworks:** PyTorch, Tensorflow, MySQL, Git, LaTeX, Docker, Hadoop

TEACHING & SERVICE

- **Teaching Assistant** of two courses ("Fundamentals of Operation Research" and "Function of Complex Variable")
- **Administrator** of thirteen deep-learning workstations (86 GPUs in total) of LDS lab for three years
